

# Optimizing Project Accounting for Professional Services Firms

Professional services firms, such as engineering, architecture, and consulting, have specific project accounting needs that revolve around revenues tied to projects. Piecing together single-use technology prevents full accounting visibility and collaboration.

This infographic illustrates the importance of one connected platform that supports all your project accounting needs.

## PROFESSIONAL SERVICES PROJECT ACCOUNTING FROM START TO FINISH

Professional Services firm Safety Management Group leveraged Acumatica as their one centralized platform.

[WATCH NOW >](#)

Acumatica Professional Services Edition is the one connected solution that eliminates data silos and connects teams for true project accounting success.

*Connect office and remote workers in real-time with cloud and mobile professional services and accounting software.*

"One of the huge benefits of Acumatica has been the ability for the technicians out in the field to clock in and out of their appointments. It gets that information back into the office faster."
